Parts list:

- 4x Self-tapping Screws
- 1x Pin tool

Tools Needed:

- Punching cone
- Phillips Screwdriver

Before You Begin:

✓ **Check Parts** – Verify all included components before starting.

✓ **Review Instructions** – Read this guide thoroughly before installation.

Safety Notice:

🔒 **Always set your password with the door OPEN** to prevent accidental lockouts. Test the password 3-5 times to ensure proper function.

Installation Steps

1. Prepare the Armrest Box

- Remove all items from the armrest box.
- Take out the factory floor mat.

2. Prepare the Safe Interior

- Open the safe door.
- Remove the interior padding and set it aside for Step 6.

3. Position the Safe

- Place the safe inside the center armrest box.
- Make sure it is centered and level.

4. Secure the Safe

- Use the included punching tool to create guide holes in the armrest box wall by pressing through the safe's pre-drilled holes.
- Hand-start the self-tapping screws in the pre-drilled holes.

5. Final Tightening

- Use the included Phillips screwdriver to fully secure the screws.

⚠️ **Caution: Do not overtighten—this may crack or damage the armrest box.**

6. Restore the Interior

- Put back all padding removed in Step 2.
