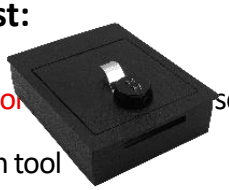
Parts List:



- 4x Short screws
- 1x Pin tool

Tools Needed:

- Punch tool
- 2x Longer Self-tapping screws
- Phillips Screwdriver

Before You Begin:

✓ **Check Parts** – Verify all included components before starting.

✓ **Review Instructions** – Read this guide thoroughly before installation.

Safety Notice:

🔒 **Always set your combination codes with the door OPEN** to prevent accidental lockouts. Test the codes 3-5 times to ensure proper function.

Installation Steps

1. Prepare Armrest Box

- Remove all items from the armrest box

2. Prepare Safe

- Open safe door

3. Position Safe

- Place the safe into the console armrest box.
- Slide the safe firmly toward the front of the vehicle.

4. Locate the Pre-Drilled Holes

- Identify the pre-drilled holes on the frame of the safe.
- Use the included punch tool to drill pilot holes through these pre-drilled holes in the console box wall. If the punch tool is unable to create the holes, use the 2 longer self-tapping screws provided.

5. Secure Safe

- Place the self-tapping screws into the pre-drilled holes created in the previous step.
- Use included Screwdriver to secure screws

⚠️ **Caution:** Overtightening may damage console
