Parts List:

- 2x Stainless Steel Phillips Hex Head Screws
- 2x Washers
- 1x Pin tool

Tools Needed:

- **Phillips Screwdriver**

Before You Begin:

✓ **Check Parts** – Verify all included components before starting.

✓ **Review Instructions** – Read this guide thoroughly before installation.

Safety Notice:

🔒 Always **set your password** with the **door open** to avoid accidental lockouts. **Test** the password 3–5 times to ensure proper operation **BEFORE** installing the safe in your vehicle.

Installation Steps

1. **Prepare Armrest Box**
   - Remove all contents from the console, including the tray and bottom mat
   - Use the Phillips Screwdriver (provided) to remove factory bolts from the bottom of the console.
2. **Prepare Safe**
   - Open safe door, remove the padding, and set it aside.
3. **Position Safe**
   - Position the safe inside the armrest box, aligning its mounting holes with the vehicle's factory screw holes.
4. **Secure Safe**
   - Insert the supplied Phillips Hex head screws through the safe's mounting holes into the factory holes, then tighten with supplied screwdriver.
5. **Place the padding**
   - Return the padding (removed in Step 2) to the interior of the safe.

⚠ **Caution:** Over tightening may damage the console, tighten just until snug.
