[for Honda HRV 2023-2026]

Thank You for Your Purchase! Need help? Contact us!

Parts List:

- 4x Self-tapping screws
- 1x Pin tool
- 2x Backup keys

Tools Needed:

- Punch tool
- Phillips Screwdriver

Before You Begin:

- ✓ **Check Parts** – Verify all included components before starting.
- ✓ **Review Instructions** – Read this guide thoroughly before installation.

Safety Notice:

 **Always set your lock combination with the door OPEN** to prevent accidental lockouts. Test the fingerprint codes 3-5 times to ensure proper function.

Installation Steps

1. Prepare Armrest Box

- ▶ Remove all items from the armrest box

2. Prepare Safe Interior

- ▶ Open safe door
- ▶ Remove the interior padding (*set aside for Step 6*)

3. Position Safe

- ▶ Place the safe into the central control armrest box. Straighten the safe and place it on the tray rack.

4. Locate the Pre-Drilled Holes

- ▶ Identify the pre-drilled holes on the inner walls of the safe.
- ▶ Use the provided punch tool to create pilot holes in the console wall through these pre-drilled holes.

5. Secure Safe

- ▶ Place the self-tapping screws into the pre-drilled holes created in the previous step.
- ▶ Use included Screwdriver to secure screws

 **Caution:** Overtightening may damage console

6. Restore Interior

- ▶ Replace all padding removed in Step 3
