Parts List:

- 4x Bolts
- 4x Washers
- 1x Pin tool
- 2x Keys

Tools Needed:

- L-Shaped Hex Socket Wrench

Before You Begin:

✓ **Check Parts** – Verify all included components before starting.

✓ **Review Instructions** – Read this guide thoroughly before installation.

Safety Notice:

 Always **set your fingerprint codes** with the **door open** to avoid accidental lockouts. **Test your code** 3–5 times to ensure proper operation **BEFORE** installing the safe in your vehicle.

Installation Steps

1. Prepare Armrest Box

- ▶ Remove all items from the armrest box
- ▶ Use the L-shaped Hex Socket Wrench (provided) to remove bolts from the bottom of the armrest box.

2. Prepare Safe

- ▶ Open safe door, remove the padding, and set it aside.

3. Position Safe

- ▶ Position the safe inside the armrest box, aligning its mounting holes with the vehicle's factory screw holes.

4. Secure Safe

- ▶ Place the screws with the washers into the mounting holes
- ▶ Use the included Wrench to secure screws.

5. Place the padding

- ▶ Return the padding (removed in Step 2) to the interior of the safe.

 **Caution:** Over tightening may damage console
