Installation Steps

1. Prepare Armrest Box

- ▶ Remove all items from the console
- ▶ Use the L-shaped Hex Socket Wrench (provided) to remove bolts from the bottom of the console.

2. Prepare Safe

- ▶ Open safe door, remove the padding, and set it aside.
- ▶ Use the supplied screwdriver to remove these four screws from the safe panel and set them aside.

3. Position Safe

- ▶ Position the safe base, align all mounting holes with the vehicle's original factory threaded holes, hold the base in place temporarily.

4. Secure Bottom & Reassemble the Safe panel

- ▶ Insert screws fitted with washers through the aligned mounting holes, then fully tighten using the L-shaped Hex Socket Wrench
- ▶ Reinstall the outer panel onto the safe base, insert the reserved screws into the screw holes, and fasten gently with the Phillips screwdriver.

5. Place the padding

- ▶ Return the padding (removed in Step 2) to the interior of the safe.

 **Caution:** Over tightening may damage console
