Parts List:

- 2x Stainless Steel Phillips Hex Head Screws
- 2x Washers
- 1x Pin tool
- 2x Keys

Tools Needed:

- **Phillips Screwdriver**

Before You Begin:

- ✓ **Check Parts** – Verify all included components before starting.
- ✓ **Review Instructions** – Read this guide thoroughly before installation.

Safety Notice:

Always **set your fingerprint** with the **door open** to avoid accidental lockouts. **Test** the fingerprint 3–5 times to ensure proper operation **BEFORE** installing the safe in your vehicle.

Installation Steps

1. Prepare Armrest Box

- Remove all contents from the console, including the tray and bottom mat
- Use the Phillips Screwdriver (provided) to remove factory bolts from the bottom of the console.

2. Prepare Safe

- Open safe door, remove the padding, and set it aside.

3. Position Safe

- Position the safe inside the armrest box, aligning its mounting holes with the vehicle's factory screw holes.

4. Secure Safe

- Insert the supplied Phillips Hex head screws through the safe's mounting holes into the factory holes, then tighten with supplied screwdriver.

5. Place the padding

- Return the padding (removed in Step 2) to the interior of the safe.

Caution: Over tightening may damage the console, tighten just until snug.
